### Property Management Notes:

Other recipient and subrecipient procedures for maintaining equipment (including replacement), whether acquired in whole or in part with project funds, will, at a minimum, meet the following requirements.

Property records must be maintained which include:

1. Description of the property
2. Serial number or other identification number
3. Source of the property
4. Identification of title holder
5. Acquisition date
6. Cost of the property
7. Percentage of Federal participation in the cost of the property
8. Location of the property
9. Use and condition of the property
10. Disposition data, including the date of disposal and sale price

A physical inventory of the property must be taken and the results reconciled with the property records at least once every 2 years. A control system must exist to ensure adequate safeguards to prevent loss, damage, and theft of property. Any loss, damage, or theft shall be promptly and properly investigated by the recipient and subrecipient, as appropriate. Adequate maintenance procedures must exist to keep the property in good condition. If the recipient or subrecipient is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.
